<b>Issue/Questions - Addendum No. 2</b>					
8.	2			Are up-to-date job descriptions for all jobs included in this study?	The majority of the job descriptions have been reviewed within the past two years. UMUC will work with managers to collect missing job descriptions or to confirm accuracy.
9.	2			Are the number of jobs listed in the RFP unique, or does this list include jobs that may be similar but are in different locations?	Counts represent the number of unique jobs. As part of the analysis, UMUC anticipates similar jobs being identified and combined where appropriate.
10.	2			Are the overseas jobs local nationals, expatriate or both? How many of each?	The vast majority of our employees are US citizens. However, UMUC has a small number of local national employees. Historically, local nationals are paid similar to US Citizens and this is anticipated to continue.
11.	2			Do you currently have any incentive plans in place?	No.

#	Addendum No.	Solicitation Section	Solicitation Reference	Question/Issue	UMUC Response/Modification
12.	2			To clarify, this proposal does not include analysis of target country social security and benefits laws applicable to the jobs being priced in this engagement?	No.
13.	2			Why is UMUC conducting this engagement at this time?	UMUC has received approval from the Board of Regents to create HR policies separate from the University System of Maryland (USM). As such, UMUC will no longer be held to the USM Exempt pay structure, which is not a market-based structure. It is UMUC's desire to create a true market-based structure, and ensure uniformity and consistency between our stateside and overseas structures.
14.	2			To what extent is the FLSA work in response to the final regulations, or does the institution have specific concerns regarding classification of its positions?	The final regulations have created further urgency. UMUC intends to audit the FLSA status of at-risk positions.
15.	2			To what extent has UMUC considered implementation of this new compensation structure (March 2017, from RFP), with the December 1, 2016 compliance date for the final FLSA regulations in mind?	The FLSA date is not driving the implementation of the structure. We are certainly open to an earlier implementation date, depending on the work and time involved to recommend and propose structures and incentive plans.
16.	2			Is the expectation that the consultant will conduct a FLSA review of all 660 jobs (representing 1,328 employees) or a specific segment of this population?	No, it will be a much smaller segment of this population.
17.	2			Does UMUC desire for the consultant to conduct a market assessment of the exempt staff positions or use the salary survey information that UMUC provides to redesign the pay structure?	UMUC will provide the salary survey information to be used for the market assessment.
18.	2			What does UMUC mean by standardization of job descriptions: development of a new job description/template or rewriting all exempt job descriptions using the new template?	The development of a best practice job description template.

#	Addendum No.	Solicitation Section	Solicitation Reference	Question/Issue	UMUC Response/Modification
19.	2			Can you provide more detail on your expectation regarding the evaluation of existing career ladders and other career related progression programs?	Where UMUC has career ladders in place (for example, Systems Analyst I, II, III), it is our desire to have these ladders be market priced, as well as evaluated for appropriate leveling. For example, where UMUC may have 4 levels for a job, the awarded contractor shall recommend if it would be more appropriate for only 3, or vice versa.
20.	2			Is the adverse impact and equity analysis a function of the new pay structure or does UMUC desire a formal pay equity analysis with respect to gender, race, and age?	This would be a function of the new pay structure prior to implementation.
21.	2			To what extent does UMUC currently have an incentive plan in place today? If so, who participates in this plan and how does it work?	UMUC does not presently and has never had an incentive plan.
22.	2			If UMUC is considering a new incentive plan, would this be for all employees or a subset of its employee population?	It is UMUC's expectation that the Contractor shall provide/propose to UMUC recommendations along with options and a thorough explanation of your firm's recommendations and options. Recommendations may be based on learning/findings, analysis, readiness, best practices, etc.
End of Addendum Two dated 06/2/16					
<b>Issue/Questions - Addendum No. 3</b>

It is UMUC's desire to create a true market-based structure, and ensure uniformity and consistency between our stateside and overseas structures.
24.	3			When was the last time similar initiatives were conducted?	A market price review was conducted in 2012.
